Position of Responsibility

Centre of Metaverse   Nov. 2021 – Sept 2025
3D Modeller/UI/UX Designer   Noida, Uttar Pradesh

- Collaborated with a team of 13 people to deliver quality products.
- Worked upon multiple projects which were either outsourced or requested by our college in AR VR Domain.
- Organized multiple Workshops in our college on AR VR domain, Guiding Juniors and introducing them to AR VR development
- Worked on a UI design using Figma to make a tourism website named Safar.

PROJECTS

Coke Advertisement (Project Link)

- Showcase of Blender's 3D modeling capabilities: A beautifully designed, hyper-realistic Coke can rotates gracefully, capturing every gleam and reflection.
- Transition to a visually stunning animation sequence: The Coke bottle gets splashed with a stream of Coke, symbolizing the refreshing essence of Coca-Cola.
- Cut to a close-up of a Coke bottle covered in droplets of condensation. The camera pans up, showcasing the iconic red label and logo glistening in the light.

Home Model (Project Link)

- Using the power of Blender, the modeling project came to life with stunning realism and intricate detail.
- From meticulously crafted textures to dynamic lighting, every element was meticulously sculpted, showcasing the seamless fusion of creativity and technology

Mowgli Humanoid Model (Project Link)

- Using Blender's advanced sculpting tools, I meticulously carved out the facial features, paying meticulous attention to proportions and symmetry.
- Every contour, from the arch of the eyebrows to the curve of the lips, was sculpted with precision, capturing the subtle variations that make the face unique.

Safar (Project Link)

- Engage with India's cultural tourism through a Figma-designed tourism website.
- Navigate effortlessly with an intuitive interface, exploring diverse traditions, landmarks, and experiences.
- Immerse yourself in captivating visuals, igniting a passion for exploring India's rich and soulful heritage.
